Dear Ian,

Re: TLM Level 2 Certificate in Open System and Enterprise (ITQ) (QCF) QAN 500/8073/8. TLM Level 1 Award in Open Systems and Enterprise (ITQ) (QCF) QAN 501/1428/1. TLM Level 1 Certificate in Open System and Enterprise (ITQ) (QCF) QAN 500/8080/5 and TLM Entry Level Certificate In ICT Open Systems and Enterprise (ITQ) (Entry 3) (QCF) QAN 601/0988/9.

We are happy to support these entry level, level 1 and level 2 qualifications and we plan to offer them in the near future. We recognise their value in providing a bridge for those with weaker educational backgrounds to encourage them to get to Level 2 and above. The range of IT skills needed for employment is supported as well as those needed in everyday living. TLM's unique and innovative assessment model and support for open source technologies make this qualification particularly good value by removing bureaucratic overheads and enabling teachers to spend more time teaching.

The target learners are people who need encouragement to get back into mainstream learning in order to progress to Level 2 and beyond.

Yours sincerely,

Derrin Kent

Director
